Wonderware Skelta BPM SharePoint Connector

Wonderware Skelta BPM Software's SharePoint Connector extends powerful workflow functionality to SharePoint 2013. Create a centralized, integrated platform for Collaboration, Business Intelligence, Process Management, and Strategic Business Solutions.

Wonderware Skelta BPM's SharePoint Connector is business user-friendly and facilitates creation of an automated BPM environment without significant investments in software development. Leverage on existing infrastructure and build comprehensive workflows for SharePoint artifacts with minimal effort.

The Wonderware® Skelta® BPM SharePoint Connector enables maximum utilization and broader adoption of SharePoint 2013® native capabilities for Enterprise wide collaboration, Centralized process management, Improved productivity and Stronger compliance.

Minimal Code Workflow Design

- Visual, web-based drag and drop Process Designer
- Workflow built by process owners with minimal IT support
- Enterprise-wide workflows for processing documents, lists and content in SharePoint
- Build Complex Workflows with multi-user routing

Extensibility

- Access advanced workflow functionality within SharePoint
- Built-in SharePoint activities and wizards used within workflows
- Build processes for multiple SharePoint sites or specific sites within multiple SharePoint sites
- Utilize advanced Wonderware Skelta BPM features like Queues, DashBoards, KPIs and Reports of Wonderware Skelta BPM within SharePoint
- Use SharePoint List or Wonderware Skelta BPMs powerful Forms Designer for easy designing of forms
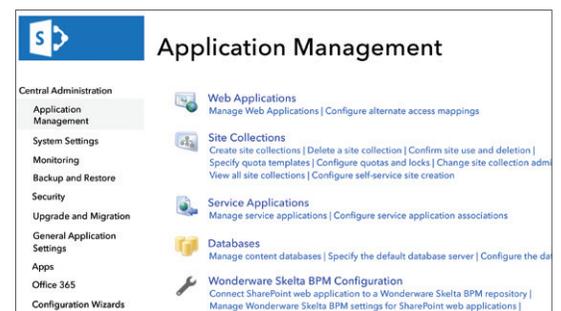

Quicker Time to Market

- Modeled on SharePoint's characteristics.
- Shorter learning curve and training
- Empowers users to become immediately productive on familiar interfaces

Rapid ROI

- Integration with multiple databases
- Integration with Microsoft technology stack
- Protected SharePoint investment
- Negligible IT support to build and deploy processes

Optimization

- Measure and manage processes
- Get real time workflow statuses
- Improve business performance
